FEDA MOHAMMED ALYAHYA

FRONTEND SOFTWARE ENGINEER

Riyadh, Saudi Arabia | realfedaa@gmail.com | +966501357544 | linkedin.com/in/feda-alyahya-aa7729320 | github.com/feedaa03

SUMMARY

Frontend Software Engineer who builds responsive, bilingual (Arabic RTL / English) web interfaces with React, Next.js, and TypeScript, and connects them to APIs and AI services. Experienced in turning Figma designs into clean code, integrating LLM and backend APIs, and working in a team with pull requests and code review. SDAIA-certified in Generative AI Solutions.

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, responsive design, Arabic RTL support
Backend & APIs: Python, Node.js, REST API calling and integration, Postman, FastAPI (basic), PostgreSQL
AI Tools & Integration: Claude API, OpenAI/Gemini integration, prompt engineering, AI-assisted development
Workflow: Git, GitHub (pull requests, code review), Trello, Figma-to-code implementation

PROJECTS

Waslah Website - team project | Next.js, TypeScript, Tailwind CSS, Figma
- Worked in a team with designers and engineers to build the bilingual (English/Arabic, RTL) Waslah website, turning Figma designs into responsive pages through pull requests and code review.

Multi-Agent Compliance AI System (2026) | Next.js, FastAPI, CrewAI, LlamaIndex, Claude API
- Built the Next.js frontend that serves a multi-agent compliance review system, consuming a FastAPI backend and Claude API outputs grounded in source documents (RAG).

Personal Portfolio Website | React
- Designed and built a responsive portfolio site with an Apple.com-inspired aesthetic.

EXPERIENCE

Software Engineering Intern | 2026 – Present
- Work in a team setup with Trello, GitHub pull requests, and code review, following Figma specs for sizing and spacing.
- Shipped the About page through a pull request and applied code-review feedback from the team lead.
- Review teammates' PRs, including a form integration using Next.js Server Actions with Zod validation.

AI Engineering Intern, mytrip.company (Smart-Airport Travel App) | Sep 2026 – Present
- Integrate OpenAI/Gemini models through APIs and work on prompt engineering and GPS data analysis for personalized travel itineraries.
- Write core usage scenarios (user delay, activity cancellation, venue closure) and define expected behavior for the Smart Schedule feature.

Freelance Frontend / AI Product Developer | Dec 2024 – Present
- Build user-centered web interfaces with native Arabic RTL support.
- Delivered a client website end to end (saraalmashoug.com), from requirements to deployment on Netlify.

Cooperative Training (COOP), Al Enjaz Higher Institute | Mar – Jun 2023
- Computer Science & Programming intern.

EDUCATION

Prince Sattam Bin Abdulaziz University: Intermediate Diploma, Computer Science & Programming (GPA 4.30, Second Class Honours)
Apple Developer Academy | TUWAIQ: 9-month intensive program in app development, UI/UX, AI, and entrepreneurship

CERTIFICATIONS

- Developing Generative AI Solutions, SDAIA (May 2026)
- Artificial Intelligence Concepts and Advanced Applications, SDAIA (Dec 2025)
- AI Ethics, Ministry of Communications and Information Technology (Jun 2025)
